(Piano/Vocal/Guitar Artist Songbook). This 22 song album-matching songbook contains beautiful artwork and the powerful, emotional, classical/rock opera music that TSO fans rave about. Titles: After the Fall \* Mephistopheles \* What Is Eternal \* The Dreams of Candlelight \* I'll Keep Your Secrets \* Who Is This Child \* and more.

## Reviews of the **Trans-Siberian Orchestra - Beethoven's Last Night** *by* Trans-Siberian Orchestra

1. fr0mTheSkY

Neat piano books. A little more advanced than I am but I believe with practice I can learn most of these songs!

2. kinder

Love the Trans-Siberian Orchestra! And this collection of music is awesome! Fun to play on your own piano! Great arrangements of classic music modified with rock!

3. Dozilkree

I love this album. Musically I like it better than all the christmas ones.

4. Nulix

TSO's first non-Christmas album was amazing! Since I play the piano, I always wanted to learn to play TSO music. This book fulfilled my dreams and now I play the songs as good as the artists themselves!

5. Anaragelv

Great book, some pieces are very challenging but worth the practice time....really appreciate the fact that it is spiral bound, lays flat.

6. Haralem

Great

7. LadyShlak

Very pleased with this book, love the spiral binding which is perfect for pages laying flat when playing the piano.

8. Beethoven's Last Night is by far my favorite of TSO's albums, so I had very high expectations for this book. It did not disappoint.

Like all of TSO's books, the arrangements are excellent. They capture the music wonderfully without becoming overly complex. Unlike many other books based off albums, TSO's books avoid the trap of mirroring a vocal melody on the piano and sacrificing the harmony that should be there.

They also put an impressive amount of care into the overall layout of the book. The choice to use a coil binding is wonderful as it ensures the book will always lay flat, regardless of what page you're on. There's no need to weigh down the edges with other books and the pages turn much more smoothly. After I bought this book I had to rebind my other books with a coil binding because I can't stand the traditional bindings anymore.

The overall quality of this book and the music amazing and I cannot

recommend it enough.
