As Frank and Joe investigate the mysterious disappearance of a college professor, they stumble upon a baffling secret in a complex network of caves.

## Reviews of the The Secret of the Caves (Hardy Boys, Book 7) by Bill Irwin, Franklin W. Dixon

1. White\_Nigga

This isn't one of my favorite Hardy Boys books, and I don't know if it is one

that was re-written in the 60's, or not. But, I think my favorite Hardy Boys books are ones where you'd like to be part of the adventure. I don't think I'd like to be part of this adventure, as they rough it an awful lot in this one.

From the outset of this one, the boys are on the trail of Saboteurs, and asked by their father to help him. Also, they're asked by a pretty young girl, to help find her brother. As usual, we have two stories, or two subplots that merge into one plot by the end. We get small parts of Fenton Hardy's mystery, and get to follow all of the Boy's adventure.

I won't go into the ending much, as I don't want to spoil it for others. But, I will say that the ending on this one is much shorter than most Hardy Boy books.

In this adventure, the Boys and Biff and Chet go camping at the Honeycomb caves, so that Chet can use his latest hobby, a metal detector. He's searching for treasure that may have washed ashore there. At first, the Boys are going with Biff & Chet, but have to bow out when Fenton asks them to help him. But, during the course of their investigation of the missing man, they are led to the same destination as Biff & Chet. So, they all end up going to the caves together. Like I mentioned earlier, they really had to rough it at the caves. Because of that, it doesn't appeal to me as much as some others. They really rough it in their next story too! I guess it was a recurring theme perhaps, when the stories were re-written.

But, as usual, they are good role models for kids (except for an occasional fight). And, they get along extremely well for siblings, though they actually disagree once in this story!

The Boys were great fun for me, growing up. So, I'll always recommend them. Also, I listened to this one, I didn't read it. Bill Irwin did the narration, and he always does a great job. I wish they had more audio stories, with Bill narrating them.

## 2. Laitchai

The Hardy Boys are the greatest mystery solving duo of all time! Ok, maybe that's a tall order, but I enjoy them quite a bit. This book has them caught in a (metaphorical) maze of intersecting mysteries which slowly

reveal their connections over time. Chet and Biff Hooper also feature heavily into this, and Aunt Gertrude is beginning to take on a greater role in the series. Still haven't finished it but I'm enjoying every bit.

### 3. Dagdallas

My 10yr old daughter loves the Hardy boys and I did too when I was young. These are new hardback books that she gets lost in. The only issue I have is that she reads them too fast. I'm going to go broke buying her the whole set

### 4. Kezan

Our grandson loved it.

### 5. Saithi

Hardy boys are always the most wholesome action packed detective stories even if for mostly a younger audience. This story has their buddy Chet Morton uncovering clues with a metal detector! Frank and Joe help their father, the great detective Fenton Hardy on the main case here by taking on another missing person case.

6. Mikale

Purchased this for my daughter because she loves reading the Hardy Boys book and she loves it.

7. Bulace

Grandson enjoyed them. I did when I was his age.

8. My three boys love the Hardy Boys and Encyclopedia Brown.
