After a frightening encounter with a knife-wielding stranger, Morgan James was bewildered when her "attacker" turned out to be the very wealthy Nicholas Gregoras. But could Morgan's suspicions about the mysterious Greek tycoon withstand the all-consuming desire ignited by his kiss?

Reviews of the *Right Path* *by* Nova Roberts

1. Nto

Love Nora Roberts - have devoured everything she has ever written and will continue to do so, even tho' this was pretty awful. BUT, that being

said, you can definitely tell this was one of her very early books. Having just finished her latest, "Whiskey Bay" you can definitely tell she has matured into a fine writer (in my opinion). This was a reread for me and its been a number of years since I originally read it - had forgotten the plot and was "jonesing" for a Nora book so I paid that ridiculous amount of money. My bad ! I wouldn't bother tho'. Also, since Kindle is releasing a number her older books, the editing leaves a lot to be desired - cranking them out fast and furiously. Be careful with the triologies also - they may be more expensive as a whole then individually and in the incorrect order. However, she, and her alter ego J.D. Robb, will remain one of my favorite authors.

2. Doukasa

I liked the romance and the strong characters of Nick and Morgan, but the other characters were under developed. Although I am a true admirer of Nora Roberts, I was surprised at the lack of research of Greece, the Greek language and even Greek names. The location on a Greek island was not brought to life. While most readers don't know enough about the country or culture to know, why throw in Greek words if you don't use them correctly? Greek nouns have masculine and feminine endings and the maid kept addressing the heroine, Morgan as "Mr". A kafenion is a coffee shop, not a place to eat dinner. That would have been a taverna. And the last names of all the characters weren't authentic. I chose this particular novel because of its Greek setting and all of these errors distracted from what could have been a great story. Bet Nora Roberts has never been to Greece!

3. Shalinrad

I have read reviews about early Nora Roberts books being published as new releases. at first I didn't think it would be a problem for me because I hadn't read the books before anyway. but apparently Nora Roberts evolved into a much better writer in later years. I can't believe that this book was written by the same person that wrote other books like the

witness which I thought was great.

in this book the heroine Morgan meets the hero Nick by being attacked by him. she goes back and forth between loving him and hating him, and he generally treated like dirt. I didn't like Morgan and I liked Nick even less. this love hate relationship takes place in the course of about 2 weeks. it was just ridiculous. I will be more cautious when ordering books from this publisher from now on.

4. SlingFire

Great story of smuggling drugs and artifacts in the Greek Isles, leads a private investigator an opportunity to fall in love with an American there on vacation. As the story unfolds the identity of the suspect is maintained in that he wears a mask and conducts the smuggling operation under the cover of night.

This author continues her depth of writing by hiding the suspect in among the every day flow of the characters. Exciting reading

5. Kadar

After Redding 25 percent of this book all that had happened was that the lady got mugged on the beach. There were wY too many descriptions of things and nothing was happening. Also some of the words that she used in her descriptions looked like they were taken from another book. VERY DISAPPOINTED. I usually love Danielle Steele but I feel like I was taken for my money in this book.

6. Ariseym

Great read. Nora Roberts always has interesting characters and the plot is fascinating.

7. Phalaken

This is my second time reading this book and I was not disappointed. I read it many years ago and I had forgotten how some of the story lines intersected. It's always a pleasure to read Nora Roberts because she does such a good job with character development and believability, while creating a love story worth reading.

8. I like the book, the location was beautifully described. The main character was a little too much. This is probably one of her older novels. I enjoyed it and probably would have liked it more if I had read it when it first came out. That being said it was still good and I'm glad I read it. It is just a light read.
