## Reviews of the [The Devil Rides Out](#)

### 1. Heraly

If you like Paul O'Grady, you will love his books. I have all of them, and I suggest reading them in chronological order if you're going to get them. He's a funny man, and his books are well written and entertaining. He has an amazing life.

## 2. Seevinev

This is a great book with stories that will make you shed tears for reasons of sadness & as expected tears of laughter. I read it while lying alone on a sun lounger & really laughed out loud on a few occasions much to the amusement of my fellow holiday makers. A great insight into Paul O'Grady & the immaculate conception of Lily Savage

## 3. Beabandis

I found it hard to put this book down and couldn't wait to pick it up again. Funny, poignant, enlightening and a darn good read is how I can only begin to describe this book. Paul reveals the lead up to the coming out of his 'female side' as Lily Savage and how she changed his life.

## 4. Xangeo

Well worth a read, if you have any humour in your sole, this book is a must read  
Nice one Paul.....

## 5. Whitecaster

Excellent read, like listening to an old pal recounting favourite memories, with a vocabulary extensive, succinct and colourful.  
Looking eagerly forward to reading "The Savage Years," next.

6. Detenta

I love Paul but I wanted more of Lily's rise to fame. All Paul not much Lily, but hilarious just the same

7. Saintrius

aaaahhhh

8. Enjoyed first book but this one even better!Just so easy to get on kindle and then read didn't take me long to read,have read three books in the time it would take me to read one normal paperback !!
