This book could be one of the most important documents ever produced on the subject of the European Union. For while many other whistleblowers have attempted to reveal what is going on in the rotten heart of Brussels, there has been no one at the high level of Marta Andreasen: Chief Accountant of the European Commission. As payment for her efforts to reveal inadequacies that still exist to this day - a basic lack of double-entry book-keeping and accrual accounting controls - the corrupt Brussels apparatus set out first to silence, then humiliate and finally destroy her through judicial delay. Possibly no other case has shown better how the Euro bureaucracy, through stealth, deceit and the lack of clear, impartial laws, is threatening to become a tyranny. For anyone concerned about the looming powers of our unelected, unaccountable 'rulers' in Brussels, this book is a must.
